# ABOUT

**Tradewingo Coin (TRADEWINGO) is a decentralized cryptocurrency designed to facilitate seamless, low-cost, and secure cross-border transactions for global trade. Built on a scalable blockchain with a hybrid consensus mechanism, TWC aims to empower businesses and individuals by reducing reliance on traditional financial intermediaries, lowering transaction fees, and enhancing transparency. This whitepaper outlines the vision, technical framework, tokenomics, and roadmap for Tradewingo Coin, a project committed to revolutionizing global trade and financial inclusion.**

# VISION

**To create a global financial ecosystem where businesses and individuals can transact freely, securely, and cost-effectively, fostering economic opportunity and financial inclusion worldwide**

# ROAD MAP

**2025**

## **Project Initiation**

**Launch whitepaper and official website.  
Conduct Private sale for early investors.  
Develop Tradewingo Blockchain testnet.**

## **Development Phase**

**Release testnet for community testing.  
Onboard initial validator nodes.  
Begin partnerships with trade organizations.**

**2026**

## **Mainnet Launch**

**Deploy Tradewingo Blockchain mainnet.  
Launch public ICO.  
Integrate DEX and initial DeFi protocols.**

## **Ecosystem Growth**

**Expand partnerships with SMEs and financial institutions.  
Introduce mobile wallet for TWC transactions.  
Initiate community governance voting.  
Scale network through sharding and layer-2 solutions.**
